# Agenda

## Research and Sponsored Initiatives

Wednesday, December 11, 2024  
1:30 PM

Claiborne Building, 1st Floor ▪ Thomas Jefferson Rooms A&B, 1–136  
1201 N. Third St. ▪ Baton Rouge, LA 70802

- I. Call to Order
- II. Roll Call
- III. Division of Endowed Chair into Endowed Professorships: LSU and A&M College
- IV. Board of Regents Support Fund Plan and Budget, FY 2025–26
- V. Other Business
- VI. Adjournment

Committee Members: Stephanie A. Finley, Chair; Phillip R. May Jr., Vice Chair; Darren G. Mire; Wilbert D. Pryor; Samer Shamieh; Felix R. Weill  
Staff: Carrie Robison, Deputy Commissioner for Sponsored Programs

## **AGENDA ITEM III.**

### **Division of Endowed Chair into Endowed Professorships: LSU and A&M College**

#### **Background Information**

In August 2011, the Board of Regents approved guidelines for the division of Endowed Chairs funds to establish Endowed Professorships, setting the minimum corpus level of professorships so created at \$250,000. Since this determination, several campuses have divided BoRSF–matched Chairs to establish Professorships at this level or higher.

#### **Staff Summary**

The Paul M. Horton Chair in Chemical Engineering is a \$2 million endowed chair held by LSU and A&M College, matched by the BoRSF in FY 2006–07. The Chair has been vacant since 2015, and LSU A&M requests approval to divide it into two Endowed Professorships, as follows:

- Paul M. Horton Professorship in Chemical Engineering #1, with a corpus of \$1,200,000 (\$720,000 non–state/\$480,000 BoRSF)
- Paul M. Horton Professorship in Chemical Engineering #2, with a corpus of \$800,000 (\$480,000 non–state/\$320,000 BoRSF)

LSU A&M has certified that the original donor approved this conversion. LSU Board of Supervisors approval was granted at its October 10, 2024 meeting.

#### **STAFF RECOMMENDATION**

**Consistent with the August 2011 policy, the Senior Staff recommends approval of the division of the Paul M. Horton Chair in Chemical Engineering into two (2) endowed professorships, as follows: (1) Paul M. Horton Professorship in Chemical Engineering #1, with a corpus of \$1,200,000 (\$720,000 non–state/\$480,000 BoRSF) and (2) Paul M. Horton Professorship in Chemical Engineering #2, with a corpus of \$800,000 (\$480,000 non–state/\$320,000 BoRSF).**

## AGENDA ITEM IV.

### Board of Regents Support Fund (BoRSF) Plan and Budget Recommendations, FY 2025–26

#### Background Information

The Board of Regents Support Fund (BoRSF), constitutionally designated to and managed by the Board of Regents, receives revenues on an annual basis from the Kevin P. Reilly, Sr. Louisiana Education Quality Trust Fund (LEQTF). These dollars, separate from State General Fund appropriations, cannot be used for operating costs, but are designated to support supplementary and enhancing programs to improve the quality of higher education and contribute to Louisiana’s economic development. Accordingly, within the parameters set forth in the Constitution, the Board of Regents operates competitive programs and subprograms through the BoRSF appropriations, to bolster performance in priority areas through a variety of activities, including departmental enhancements, research and development, endowment matching, and targeted student support.

The Board is required by Article VII, Section 10 of the Constitution to submit an annual plan and budget to the Legislature and the Governor not less than 60 days prior to the beginning of the Regular Legislative Session. This document outlines proposals for expenditure across the four constitutionally permitted components of the Support Fund: Endowed Chairs for Eminent Scholars, Recruitment of Superior Graduate Students, Targeted Research and Development, and Enhancement of Academic, Research, and Agricultural Departments and Units. Though House Bill 7 of the Third Extraordinary Session repeals the LEQTF and related BoRSF, a Plan and Budget is still required for FY 2025–26, pending approval of the constitutional amendment by the voters on March 29, 2025.

#### Staff Summary

Though the Revenue Estimating Conference (REC) provides the official revenue estimate for the Support Fund, staff considers this projection alongside trends over the recent past and the annual projection of the Treasury. Annual revenues generated for the Support Fund declined steadily and significantly for the period FY 2006–07 through FY 2019–20, from a peak of \$35 million to less than \$18 million. While revenues recovered to \$27 million in FY 2020–21, this was a result of significant sell-offs to accommodate statutory caps on investment in securities, and did not represent a general improvement in Trust Fund performance. Annual revenues have returned to low levels in the last three fiscal years, and in FY 2022–23, the Support Fund achieved its lowest-ever level of earnings – \$16.115 million – since 1988. In FY 2023–24, revenues recovered slightly, totaling \$18.231 million. Expenditures have declined to align with lower amounts of available dollars.

For FY 2025–26, projections of the Treasurer and Revenue Estimating Conference are similar, ranging from \$16.562 million (Treasurer, October 2024) to \$15 million (REC, May 2024). These estimates reflect the thinking that the revenue–generating power of the Trust Fund will remain at historically low levels.

Based on current estimates, recent earnings, and Support Fund history, the BoRSF Planning Committee concluded that \$17 million, slightly higher than the Treasury estimate, is a reasonable budget level for the BoRSF in FY 2025–26, with contingencies to accommodate potential shortfalls. This recommended budget level will require reductions in monies available to new grants and endowment matching, but will provide sufficient funds to retain all programs currently offered. The structure of the Support Fund, with RFPs released at the beginning of the fiscal year and funding allocated at the end, gives the Board ample opportunity to reduce planned expenditures should estimates require. Recommended contingencies call for staff to monitor updated revenue estimates and, if indicated, make pro–rata reductions to new monies for competitive programs in accordance with contingencies outlined in the plan and budget. Only under extreme exigency would federal matching dollars, guaranteed donor matches in Endowed Professorships (two slots per campus), or prior commitments be reduced.

Operating in this manner will minimize risk to this long–standing and highly valuable activity of the Board of Regents, allowing flexibility to adjust approaches as the BoRSF’s financial position continues to evolve.

Program allocations, as well as all contingencies in the event that revenues are higher or lower than projected, are detailed in Attachment A. Brief descriptions of each program/subprogram included in the budget are provided in Attachment B.

It is noted that regardless of Board of Regents action, this Plan and Budget will not be included in House Bill 1 if the Support Fund is terminated by voter approval of the proposed amendment to Section VII of the Louisiana Constitution.

### **STAFF RECOMMENDATION**

**Senior Staff recommends approval of the FY 2025–26 BoRSF Plan and Budget, with contingencies, as presented.**

**ATTACHMENT A**

**FY 2025-26 Board of Regents Support Fund Budget: BoRSF Planning Committee/Staff Recommendation**

Support Fund Program/Subprogram	FY 2025-26 PROPOSED BUDGET		FY 2024-25 APPROVED BUDGET	
	Prior Commitments (Existing Obligations)	New Monies	Prior Commitments (Existing Obligations)	New Monies
<b>Federal Matching</b>	<b>\$375,000</b>	<b>\$900,000</b>	<b>\$925,000</b>	<b>\$500,000</b>
<b>Endowed Chairs</b>	<b>\$0</b>	<b>\$2,020,000</b>	<b>\$0</b>	<b>\$2,020,000</b>

<b>Administration (Formula)</b>	<b>\$0</b>	<b>\$590,722</b>	<b>\$0</b>	<b>\$598,225</b>
<b>TOTAL</b>	<b>\$5,679,537</b>	<b>\$11,320,463</b>	<b>\$6,247,708</b>	<b>\$11,602,292</b>
<b>FISCAL YEAR BUDGET</b>	<b>\$17,000,000</b>		<b>\$17,850,000</b>	

**CONTINGENCIES:**

Higher than Budgeted:

- Additional revenues allocated as approved by the Board
- No increase in spending authority

Lower than Budgeted

- If partial reductions are needed, proportionate cuts taken in first-year amounts allocated for proposals across all competitive programs and subprograms
- If additional cuts are needed after all competitive programs eliminated, reductions taken to the non-competitive Endowed Professorships subprogram once funding guarantees are met
- If additional cuts needed after all first-year funds are eliminated, reductions made to federal matching commitments and/or prior contractual obligations

## **ATTACHMENT B**

### **Board of Regents Support Fund Program/Subprogram Descriptions**

The Constitution specifies that the Board of Regents Support Fund (BoRSF) may be used to support “any or all” of the following activities:

- The carefully defined research efforts at public and private universities in Louisiana;
- The endowment of chairs for eminent scholars;
- The enhancement of the quality of academic, research or agricultural departments or units within a university; and
- The recruitment of superior graduate students.

Programs and subprograms are divided among these categories, to ensure the BoRSF is structured in accordance with the constitutional provisions.

#### **Enhancement of the Quality of Academic, Research & Agricultural Departments and Units**

##### **1. Departmental Enhancement**

Departmental Enhancement is a competitive infrastructure-building component with the goal of improving the educational and research infrastructure and capacity in academic, research, and agricultural departments and units. Departmental Enhancement is available to any eligible formally recognized department or unit, and includes a Multidisciplinary component. Awards will be made for comprehensive (multi-year, multi-activity, broad-impact) projects, as well as targeted (short-term, smaller-scale) projects. All institutions are eligible to compete to support educational, research, and workforce activities. A spectrum of activities, from equipment purchases to curricular redesign, are allowed and encouraged; support for graduate students, either as fellowships/scholarships or assistantships, is also permitted. Disciplines are eligible every other year, on a rotating basis.

##### **2. BoR/Southern Regional Education Board Doctoral Support Initiative**

The Board of Regents/SREB Doctoral Support Initiative provides up to ten (10) support slots to help prorecruit and retain students seeking to enter the professoriate after earning their doctoral degrees. Awards are made to graduate schools or governing units for graduate education at eligible institutions, which then determine the distribution of individual slots among qualified departments. Each slot includes an academic-year supplement for student support, membership in SREB’s Doctoral Scholars Program, and participation in SREB’s annual Institute on Teaching and Mentoring for both the student and the student’s faculty mentor.

### **3. Endowed Professorships**

Endowed Professorships is a non-competitive subprogram designed to help campuses recruit or retain faculty whose research, teaching, and/or public service uniquely contribute to the mission of their departments and institutions. Participation requires a contribution of at least \$80,000 from an external source, to be matched with \$20,000 from the BoRSF; campuses with fewer than 15 matched Professorships may continue to request matching at the previous rate of \$40,000 BoRSF for \$60,000 non-State contribution until the threshold of 15 is reached. Each eligible campus is guaranteed, but not necessarily restricted to, two matching slots per year, provided that required external contributions are raised and documented. Beginning in FY 2019-20, campuses are permitted to submit requests for matching of Endowed First-Generation Undergraduate Scholarships under the same terms as Endowed Professorships, with the guarantee of two matching slots total, inclusive of both types, per campus.

### **4. Endowed Two-Year Student Workforce Scholarships**

The competitive Endowed Two-Year Student Workforce Scholarships subprogram provides scholarship opportunities for students on two-year campuses to enter the Louisiana workforce in the following ways: (a) train students for immediate entrance into selected, high-demand, four- and five-star jobs, including positions in nursing and allied health; and/or (b) prepare students to become job-ready in STEM fields after completing degrees on four-year campuses. Non-State contributions combined with a BoRSF match will produce permanent endowments.

### **5. Federal Matching**

The Board of Regents manages several major federal research and education awards from agencies such as the National Science Foundation, NASA, the National Institutes of Health, and the Department of Energy. Many State-level federal grant opportunities require matching be provided, and the BoRSF has been the source of Louisiana's match since 1987. BoRSF matching funds have leveraged more than \$7 in federal funding for every dollar committed.

## **Targeted Research and Development**

### **1. Research Competitiveness Subprogram (RCS)**

RCS funds projects that strengthen the fundamental research base and competitiveness of Louisiana's public and private universities. The subprogram is a stimulus opportunity available to researchers who are currently not competitive for federal support but show strong potential for achieving national research competitiveness in an area funded by the federal government within a limited span of time. Research funded through RCS must make fundamental contributions to knowledge in eligible scientific and engineering disciplines rather than simply seek to apply existing knowledge. RCS also includes a one-year award to assist faculty who may already be competitive through short-term pilot awards to

conduct novel scientific and engineering research leading to near-term federal support. RCS has been a highly successful initiative: a recent survey showed more than \$9 in federal/private research funding received for every \$1 in RCS funds awarded.

## **2. Industrial Ties Research Subprogram (ITRS)**

ITRS supports research efforts that show significant potential for contributing to the development and diversification of Louisiana's economy in the near term. Funded projects are required to involve significant private sector or Federal funding or, at a minimum, include a plan to leverage substantial Federal or private sector funding in the near future; and link research efforts to establishment of a new or enhancement of an existing Louisiana business or industry. A consolidated component of ITRS, the Proof-of-Concept/Prototyping Initiative provides funding to enable technology transfer research and activities, to advance innovations toward commercialization. Like RCS, ITRS has leveraged significant external investment in Louisiana research, attracting more than \$10 for every BoRSF dollar invested.

## **3. Awards to Louisiana Artists and Scholars (ATLAS)**

The BoRSF Awards to Louisiana Artists and Scholars (ATLAS) Subprogram provides support to faculty members in arts, humanities, and social sciences disciplines to complete major scholarly and artistic productions with the potential to have a broad impact on a regional, national, and/or international level. The primary focus of ATLAS is the scholarly or artistic merit of the proposed work. Projects are assessed based on their necessity, importance, originality, and likelihood to have an impact on a broad academic and/or artistic community. ATLAS has supported major scholarly and creative works that have received significant recognition and accolades across the region, the nation, and the world.

## **Recruitment of Superior Graduate Students**

### **1. Endowed Superior Graduate Student Scholarships**

The Endowed Superior Graduate Student Scholarships subprogram matches non-State contributions of at least \$60,000 with \$40,000 from the BoRSF to create endowed scholarships that may be used in support of graduate and first-professional students as well as post-doctoral fellows. Higher levels of non-State contributions, in minimum increments of \$60,000, may be matched with additional \$40,000 contributions from the Support Fund. The initial corpus of the endowment must remain intact, while income above the corpus may be used to benefit the student recipient in the form of scholarships, fellowships, and/or experiential opportunities, including internships, externships, conference travel, and field work.

### **Endowed Chairs for Eminent Scholars**

Endowed Chairs for Eminent Scholars, introduced in 1987, is a highly competitive program designed to enhance the recruitment and retention of distinguished university faculty at institutions throughout Louisiana. The program pairs a 60% private-sector match with a 40% Board of Regents award to endow a chair at a minimum level of \$1 million. The Chair, operating from the income generated by investment of the permanent endowment, must be filled in perpetuity by scholars of high renown and great ability. Given the permanent commitment of funding, Endowed Chairs must be aligned clearly with institutional role, scope, mission, and strategic priorities, and the campus must demonstrate the long-term value of the Chair to academic, teaching, and/or service work in the discipline. Campuses must provide each Chair, at a minimum, with a salary line sufficient to engage a senior scholar/leader.
